**Subject:** Indecency waters become murkier.

*News* - Tuesday, July 22, 2008

**Indecency waters become murkier.**  
 The 102-page Super Bowl ruling clearing CBS of wrongdoing isn't answering a lot of the questions broadcasters have. Washington attorney John Garziglia tells **Inside Radio** it's one more sign the FCC's indecency enforcement efforts are "crumbling". But until the Supreme Court rules on a case before it next year - he advises stations keep the delay boxes humming or face fines and legal fees.

**Networks say more 'co-syndication' deals likely.**  
 Sean Hannity's new five-year deal with both ABC Radio Networks and Premiere Radio may be the beginning of a new level of cooperation between radio networks. ABC and Premiere says they'll "strategically join forces in special cases" going forward. Westwood One CEO Tom Beusse tells **Inside Radio** "You can look forward to us partnering with either or both of them."

**Latest HD Radio upgrade - cordless.**  
 It's hard to get excited about development of a cord-free receiver in the iPod era, nevertheless it is a step forward for HD Radio. Coby next month will release a pair of new receivers including the HDR-700 portable unit that will sell for \$149. The radios debut in the midst of HD Digital Radio Alliance's \$57 million, 13-week marketing blitz urging listeners to "upgrade" to HD.
